

## ELECTRIC PANEL HEATER

effective | efficient | economical

ECO-heaters are wall mounted electric panel heaters that use less than 1/3 the energy of conventional whole room heaters. Environmentally responsible, it heats an entire room using the same electricity as 4 x 100 watt light bulbs. ECO-heaters are 24" square and are mounted 3/4" off the wall creating a convection heat channel. ECO-heaters are UL listed, have a 2 year warranty, and a retail price of less than \$100. Come visit us at booth 35409.
