Air Conditioning & Heating

# ENERGY EFFICIENCY IS KEY TO CONTROLLING THE COST OF HEATING YOUR HOME.

## ENJOY THE ENHANCED EFFICIENCY, COMFORT AND QUIET OF DUAL\$AVER FURNACE TECHNOLOGY.

The Goodman® GMH95 Gas Saver™ 95% AFUE Two-Stage (Convertible) Gas Furnace with new Dual\$aver Technology is the answer to your family's heating needs. Goodman has always been a leader in providing high-quality heating products at a value price. Now, with new Dual\$aver technology, the GMH95 Furnace will provide you with even-temperature warmth, improved air quality and quiet operation. Plus, the money you'll save on utility bills thanks to your furnace's high-efficiency performance will have you saying, "Thank Goodness for Goodman."

## DUAL\$AVER TWO-STAGE HEATING PERFORMANCE

### FOR CONSISTENT HEATING COMFORT YOU CAN COUNT ON.

Unlike conventional, single-stage furnace technology, Goodman's Dual\$aver technology eliminates the temperature swings resulting from abrupt, high-stage stops-and-starts of the furnace by operating at a low heating stage the majority of the time. This enables your Goodman GMH95 furnace to gradually and pleasantly increase the temperature of your home environment. And if low-stage heating doesn't warm your home to the desired temperature quickly enough, Dual\$aver shifts your furnace into high stage to ensure your comfort.

### OTHER BENEFITS OF DUAL\$AVER TECHNOLOGY INCLUDE:

- Quiet furnace operation
- Virtual elimination of the stagnant pockets of air that can form when the furnace stops running
- Increased air filtration providing improved air quality

## INDUSTRY-LEADING ENERGY EFFICIENCY

Your Goodman GMH95 95% AFUE Gas Furnace gets top ratings in energy efficiency, which is the key to controlling the cost of heating your home. This furnace's 95% AFUE rating means that 95 cents of every \$1.00 of heating energy expense warms your home. Some older central heating systems rate at 60% AFUE, meaning only 60 cents of the gas burned contributes to your home's heating.

At 95% AFUE, your high-efficiency Goodman GMH95 Furnace meets the stringent requirements of the Environmental Protection Agency's Energy Star Program. Plus, your Goodman GMH95 Furnace may qualify you for a tax credit of up to \$150!

### DID YOU SAY "TAX CREDIT?"

Yes, we did. The Energy Policy Act of 2005 (EPACT) provides for tax credits of \$150 for homeowners who install furnaces with an efficiency rating of 95% AFUE or higher between Jan. 1, 2006, and Dec. 31, 2007. While we recommend that you consult with a tax professional to determine the application of this EPACT tax credit to your particular situation, your Goodman GMH95 Furnace has an efficiency rating of 95% AFUE. Provided that you qualify, this \$150 credit would be subtracted from your total tax due, resulting in more money in your pocketbook, courtesy of the U.S. government. And that's in addition to the savings you'll realize year after year with a high-efficiency furnace!

## QUIET OPERATION

The components of your Goodman GMH95 Furnace have been specially selected to reduce the noise levels common in other furnaces. Plus, we house these components in a fully insulated, heavy-gauge steel cabinet. The result? Extra-quiet comfort.

## RELIABILITY AND LONG LIFE SYSTEM LIFE

The heart of any furnace is the heat exchanger. Our patented, TuffTube™ aluminized-steel tubular heat exchanger and stainless-steel recuperative coil have been tested to the highest industry standards. We guarantee their performance and back it with a Lifetime Heat Exchanger Limited Warranty and a 10-Year Furnace Replacement Limited Warranty.

For further safety and reliability, we also include our high-quality Silicon Nitride Igniter, the most durable igniter in the industry, powered by a patented Adaptive Learning Routine that helps ensure safe start-ups and maximum igniter life.

Additionally, the Goodman GMH95 Furnace is designed to minimize NOx emissions, contributing to better air quality inside and outside of your home.

## QUALITY MANUFACTURING BACKED BY WARRANTIES AND SERVICE

### INDUSTRY-LEADING WARRANTIES\*

We guarantee your Goodman GMH95 95% AFUE Two-Stage (Convertible) Multi-Speed Furnace with one of the best warranties in the industry. We cover its heat exchanger with a Lifetime Limited Warranty\* to the original, registered homeowner and provide a 5-Year Limited Warranty on all functional parts. Even better, if the heat exchanger fails within the first 10 years of use by the original, registered homeowner, we'll provide a replacement furnace for free!

For even greater protection and worry-free ownership, ask your Goodman dealer about GoodCare®, an affordable extended parts and labor warranty for your entire system.

### GUARANTEED QUALITY

From Goodman, you can depend on well-designed, top-quality, thoroughly tested products, backed by some of the best standard and extended warranties in the industry. Every single furnace and air conditioner is run-tested

before shipment to help insure trouble-free installation and long product life.

### NATIONWIDE SUPPORT

With more than 700 distribution locations and thousands of dealers coast-to-coast, you can be confident that a qualified service provider is always close by.

### EXCEPTIONAL VALUE

As the second largest unit manufacturer of residential air conditioning and heating products, we have successfully negotiated high-volume material purchasing contracts from the highest-quality manufacturers in the world, which keeps our unit quality high and the manufactured cost low.

Simply put, Goodman offers the best product value for the investment of any air conditioning and heating manufacturer in the U.S.A.

### MAJOR FEATURES OF YOUR GOODMAN GMH95 FURNACE

Aluminized-Steel Tubular Primary Heat Exchanger; Stainless-Steel Secondary Heat Exchanger

Durable Silicon Nitride Igniter

Two-Stage Gas Valve

Powder-Paint Finish

Corrosion-Resistant Vent Blower

Insulated Cabinet

Electronic Ignition Control w/DualSaver Technology

Multi-Speed Blower

Yearly Heating Cost Savings Comparison by US City	95% AFUE Savings over 60% AFUE	95% AFUE Savings over 80% AFUE
Seattle	\$2,312	\$743
Minneapolis	\$1,952	\$627
Newark	\$1,830	\$588
St. Louis	\$1,571	\$505
Atlanta	\$1,318	\$424

1) The higher the AFUE, the greater the efficiency – and the lower the operating cost. AFUE (Annual Fuel Utilization Efficiency) is the industry measurement used by the Department of Energy.

2) These figures represent the heating cost savings of a 90,000 BTUH system at \$1.415/Therm and are based on formulas published by the DOE and EPA.

3) These figures are for comparison purposes only. Actual savings will vary according to personal use habits, square footage, location, how your unit is installed and the construction of your home.

Thank goodness for Goodman.™

**GOODMAN MANUFACTURING COMPANY –  
A RECOGNIZED INDUSTRY LEADER**

Founded in 1982, Goodman Manufacturing Company, L.P., has grown into the second largest residential air conditioning and heating unit producer in the United States by providing the three most critical elements of customer satisfaction – quality, value and support. We invite you to compare... you'll be glad you did!

**Air Conditioning & Heating**

Our continuing commitment to quality products may mean a change in specifications without notice.
