

Big Green Egg XL

For many years the Large EGG was our most popular size. But as consumers increased the frequency of their outdoor cooking, they discovered that entire meals could be cooked over the coals and even learned they could cook several meals at once, they decided that large for them wasn't large enough. We realized there was a substantial demand for an even bigger EGG so we developed the XL Big Green Egg.

Specifications:

- 24-inch diameter cooking grid
- Weighs 205 pounds
- 452 square inches of cooking surface
- The XL EGG can cook:
 - two 20-pound turkeys
 - 24 burgers
 - 11 whole chickens
