The advanced fan of the EdenPURE™ runs so quiet that you would have to put your ear up next to it to know that it's even running. And the EdenPURE™ is virtually maintenance free and requires no filter replacement. There is a small 4 inch by 8 inch pre-filter made of highly durable mesh that you simply clean periodically by running water over it. The EdenPURE™ is ideal for any room in your home where airborne and surface pollution may be present.
