

GeoComfort GSC036 Split

Features and Benefits

- Geothermal systems use a small amount of electricity
- Annually saves up to 70% on energy costs compared to ordinary systems.
- Environmentally safe
- Installing a Geothermal system is equivalent to planting 750 trees or taking 2 cars off the road.
- Use the same principles to operate a refrigerator, and are just as quiet.
- Heats and cools homes evenly.
- Eliminates hot or cold blasts of air.
- Can also dehumidify during hot summer months.
- Does not use fossil fuels such as natural gas or propane.
- No worries about flames, fumes, odors, or carbon monoxide.

QUALIFIES FOR A 30% FEDERAL TAX CREDIT WITH NO LIMIT UNTIL 2016!
