

#### 50-SNC131 FEATURES:

-  Heats approx. 1,500 sq. ft.
-  Potential of up to 60,000 BTU's\* when burning seasoned cordwood.
-  Accepts up to 18" logs.
-  Fireplace backplate included.
-  Blower included.
-  Extra-large 9 1/4" x 16 1/2" door glass.
-  Built-in air wash system for cleaner glass.
-  High-tech XBT (TM) firebox design (non-catalytic) for cleaner burn, more heat *and* more efficient burn times.
-  **For masonry fireplace installation only.**  
Must use Direct Connect method of installation.
-  Optional window trim and/or lip & backplate trim available.
-  Optional gold-plated door available.
-  **E.P.A. Certified!**
-  Compact, "Flush-mount" design fits nearly all masonry fireplaces -- less of a 'footprint' than larger units, while putting out as much *or more* heat!

*We recommend professional installation.*

*\*60,000 BTU's achieved under in-house test lab conditions.*
